---------------	---	---	---

---

<i>Technical</i>	Adobe Creative Suite	HTML5/CSS3/Javascript	After Effects/ 3D Studio Max
------------------	----------------------	-----------------------	------------------------------

---

*Objective* I am currently working as a freelance designer and am looking for ongoing remote or contract opportunities in media design or development.

---

*Experience* **Freelance Designer and Developer** 2009-2012  
Designer / Front-End Developer / Flash Animation

Working for various clients over the last 3 years, I have been responsible for a variety of media design projects, including web development, web application design and banner ad creation. Specific responsibilities include website design, front-end development, Flash coding, motion graphics animation, theme creation and customization for Wordpress.

---

**Morris Communications** 2008-2009  
Designer / Flash Animation / AS3 Designer / Flash Animation

Working for this busy ad agency, I was tasked with creating both design and technology solutions for their top clients. Working closely with the creative director, I created Flash banners, micro sites, HTML email templates and print collateral. Specific duties included attending design and strategy meetings, prepping and presenting design comps, doing both ActionScript and timeline Flash animation, building HTML/CSS websites and doing print production.

---

**Freelance Developer and Animator** 2005-2008  
Designer / Developer / Motion Graphics Designer

Worked both on-site and remotely for a variety of clients and studios. In addition to being responsible for a variety of media design projects, I also did motion graphics and animation. Specific tasks included animating in After Effects for a busy production company and doing 3D design for a variety of projects.
